WHAT WE ARE

The unparalleled luxury, quality, and creativity of our products have made Beyond Decor a name synonymous with excellence. With a youthful and dynamic team, we aim to introduce fresh perspectives and superior alternatives to current market offerings. Our products are not only durable and strong but also aesthetically pleasing, available in various colors and designs to meet your creative and design needs. Beyond Decor specializes in designing and manufacturing high-end decorative surfaces and wall panel components. Based in India, we export our eco-friendly products globally.

OUR MISSION

We strive to provide the most advanced design solutions for high-end commercial, corporate, and residential spaces. We greatly value our relationships with clients, employees, and business partners. Our customizable designs are eco-friendly and sustainable, aiming to meet the needs of our clients by offering reliable, safe, and high-integrity solutions for their personal spaces.

Our mission is to help clients find the best decor options that combine superior design, quality, and innovation. With each passing day, we aim to continually improve and make our clients happy.

DISCOVER OUR UNIQUE OFFERINGS

STRONG

Built to Last:
Our panels feature multilayered construction and are crafted from premium materials. Utilizing engineered wood, they are designed to resist chipping and corrosion, ensuring long-term durability.

1

DURABLE

Eco-Friendly & Stylish:
We manufacture decorative panels that combine style with sustainability. Made from moisture-resistant engineered wood, our panels are both long-lasting and environmentally conscious.

2

AESTHETIC

Freedom of Expression:
With a diverse selection of colors, textures, sizes, and finishes, our panels allow you to fully express your creativity and bring your design vision to life.

3

Why Choose Beyond Decor?

1. High-Quality Materials : Only the best for your space.
2. Innovative Design : Stay ahead with cutting-edge aesthetics.
3. Sustainability : Eco-friendly products for a better future.
4. Customization : Tailored solutions to meet your unique needs.
5. Experience the perfect blend of strength, durability, and aesthetics with Beyond Decor . Transform your spaces with our premium decorative panels.

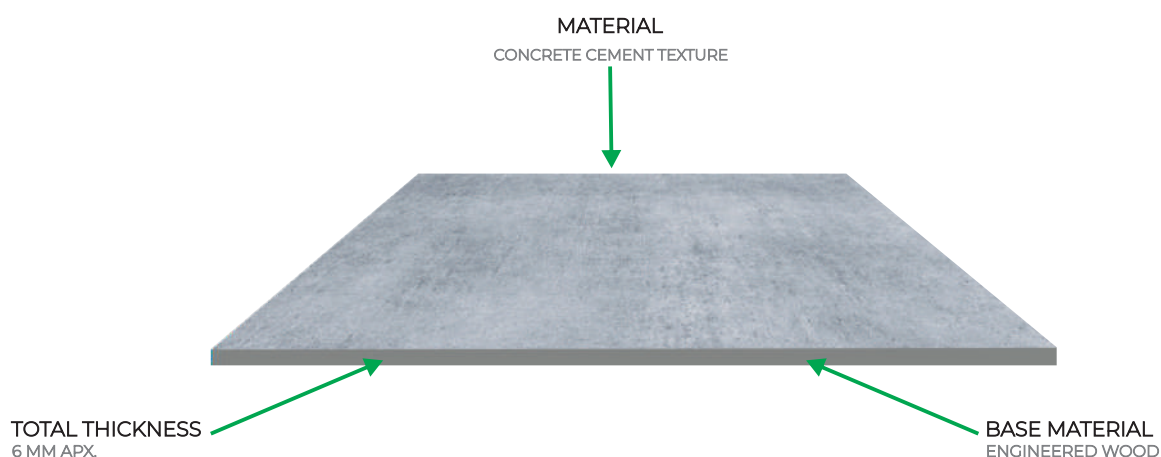

WHY ROCK BLEND PANELS ?

Rock Blend panels are long-lasting and durable if properly installed, our product is maintenance-free it's also a versatile building products. Rock Blend panels are substantially lighter, they can be used in applications that would not supports the weight of natural concrete cement, including your homes entire exterior.

In addition to being a less expensive material, Rock Blend panels are also more affordable in terms of labor costs to install, compared to natural concrete cement.

KEY FEATURES :

It is reasonably priced alternative to natural concrete cement. Light weight material reduces installation time and cost as installers can do work in a shorter time frame. An excellent choice for tight areas where it might be difficult to work with natural concrete cement. Lasts for many years when properly installed.

Application/ installation Guidelines

In the decorative panels industry most of panels are introduced in the market as wall panels. Beyond Decor are designed & developed as art panels with high finish so that a designer can easily apply the panels

Back side of the Panel

Adhesive

Apply a generous even coat of adhesive to the product, immediately wipe off excess glue with a soft damp cloth, and dry with clean soft cloth afterwards to avoid adhesive from getting in front of the product. Being extra careful to avoid damages on sheet's face surface, apply the decorative panel after polish and finish work has completed. Please apply paper tape on side by side to fix the sheet perfectly.

Cutting & Trimming

To avoid damage, don't use hand saw. Sheet surface must be face-up when cutting, to avoid chipping, trim with cutting machine (Circular saw min, 6000rpm).

Cleaning and Care

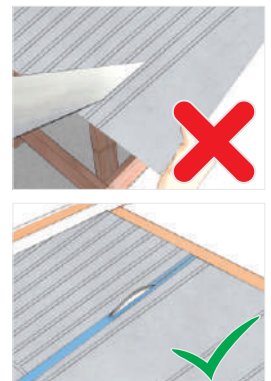

Wipe the area using a soft cloth.

Nailing & Drilling

For fixation panels avoid nailing and if it is necessary be careful to nail in the right place without damaging design.

Seam

If gaps occur at the joints, use approximate colour fillet. Immediately remove any excess filler. Wipe off but avoid scratching the surface.

*Being a processed and handmade product , the colour may vary slightly.

Disclaimer: Products and applications shown in this catalogue are for representation purpose only utmost care has been taken to give an accurate specification of all product. Colors and shades may vary from the original product.
